Subject: RE: Proposed designation for the SO2 NAAQS for Franklin County, Missouri

Hi Steve, as per my voice mail, I will be out of the office tomorrow and not back until next Friday. Thus, in order to be as responsive as we can be to a request we received from a representative of Ameren I am offering that Amy Algae-Eakin is available in my absence to provide you a very brief overview of where we are in the process. Her phone number is 913-551-7844.

Subject: Proposed designation for the SO2 NAAQS for Franklin County, Missouri

Mike – I am forwarding the attached letter that was submitted to EPA headquarters last Friday April 29, 2016 for your reference. The letter is in response to late filed comments submitted by the Sierra Club regarding modeling runs performed by AECOM on behalf of Ameren Missouri in connection with the United States' Environmental Protection Agency's proposed designations for the 2010 1-hour SO2 NAAQS for the Labadie Energy Center in Franklin County, Missouri. Please note that a hard copy of the submittal has been sent to you via overnight delivery and that the associated data files will be sent to Andy Hawkins at Region 7 via S-FTP.

Please contact me at your convenience if you have any questions about the submittal.

Best regards,

Steve
